

Objective

Helping teachers to develop professionally and attain increased student achievement through the integration of technology.

Experience

Staff Development Coordinator, August 2007-Present

- Developed a collection of Moodle (on-line course management system) classes demonstrating best practice examples of technology use in the classroom. Technologies and tools embedded in these classes includes:

Wikis	Discussion forums
Document sharing	Shared calendars
Surveys	Tests and quizzes
Live chats	Glossaries
Lessons	Lesson planning
- Used WikiSpaces for regional (4 regional BOCES) collaboration about current initiatives.
- Regularly use WordPress to create and publish on-line material (text, images, multimedia) to a variety of audiences.
- Coordinated, developed and delivered professional development experiences for educators across Upstate New York.
- Managed billing and budget development for School Improvement CoSer.
- Developed and led a countywide literacy network of teachers and administrators. Project established an annual Literacy Academy focused on student achievement through improved instructional practice and reflective dialog.
- Organized all aspects of regional scoring and training for New York State assessments.
- Staff/Curriculum Development Network (S/CDN) representative and liaison for all Oswego County school districts.
- Certified Agency Trainer in the Cognitive Coaching framework. On-going work with teachers in this capacity to aid their instructional skills.
- In cooperation with other topic coordinators, collaborated, planned and delivered instructional support services via classroom and on-line instruction.
- Established and managed several on-line collaborative networks using technologies like Microsoft SharePoint and Moodle.
- Provided leadership to a team of support personnel. Responsible for their periodic evaluations and on-going mentoring.
- Designed and delivered a Teacher Leader Academy focusing on formative assessment and 21st Century skills in technology integration.
